

SUPERFORM

Sturdy inspection work light

A+ORIGINAL
SCANGRIP

SINCE 1906

Featuring extremely high light output with 700 Lumen, SUPERFORM provides superior work light, outperforming traditional fluorescent work lights.

The work light is slim and handy, making it suitable for multiple lighting requirements. With the 2 built-in magnets combined with the two turnable hooks, the light is very easy to position, making both hands free for the required job at hand.

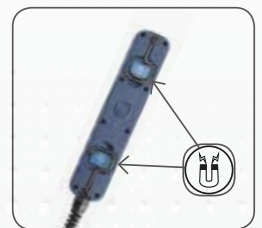

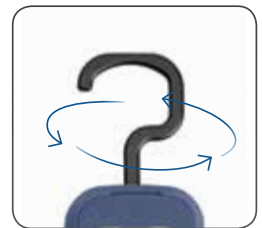

The high IP54 protection, making the lamp dust and waterproof, combined with IK08 rating, the lamp proves itself to be suitable for the demanding environments, making the SUPERFORM work light both durable and long lasting, saving money in the long run.
