

# UV-FORM

The most powerful UV-light on the market

ORIGINAL  
SCANGRIP

SINCE 1906

UV-FORM is a new rechargeable LED work light with powerful 1.5W UV-light on the top. UV-FORM is also fitted with the new COB LED strip light providing a unique powerful and completely uniform illumination. Basically, you get a universal indispensable work light and UV detection in one, and at the same time it replaces special UV detection lights.

The ultraviolet light is intended for leak detection in air-conditioning systems by means of trace elements. Also useful for leak detection of larger, complex refrigeration/freezing appliances, process-cooling systems, heat pump systems etc.

UV-FORM's flexible lamp head tilts up to 180 degrees. UV-FORM is supplied with a strong built-in magnet for easy positioning in the workspace and a turnable sturdy hook designed to fit the work belt.
