

VEGA LITE 4000

High efficient LED floodlight providing 4000 lumen

A+

ORIGINAL
SCANGRIP

SINCE 1906

VEGA LITE 4000 is a part of a new range of three innovative, sturdy, light-weight LED floodlights for the professional market, which provides high quality illumination to a variety of indoor and outdoor areas.

With a great design, performance and durability, the new VEGA LITE 4000 offers a strong light output and high quality at an attractive price. The powerful LEDs provide a diffused and pleasant, non-blinding, uniform work light, with a large dispersion.

The robust housing of the VEGA LITE 4000 is made of a highly shock-resistant plastic material, perfect for a working environment. Since the LEDs do not produce heat, there is no fire hazard when using the floodlight.

VEGA LITE 4000 comes with an integrated carrying handle and a stand for direct mounting of the lamp on the SCANGRIP TRIPOD. Two built-in power outlets on the backside make it possible to add more lamps or other equipment without the use of extra cabling - quick and easy.
